

Scott Lee

Software Engineer

Detail-oriented Software Engineer with a solid foundation in Computer Science and Information Engineering and hands-on experience in enterprise application development. Proven ability to optimize database queries, implement core functionalities, and streamline workflows using C#, Visual Basic, and SQL. Multilingual and highly adaptable, seeking to leverage practical problem-solving skills and a strong interest in smart manufacturing to contribute effectively as an MES Development Engineer.

Experience

2024-01 - 2025-01

Software Engineer (Intern)

Holy Stone Enterprise, Taoyuan City, Taiwan

Technical Onboarding & System Adaptation:

- Successfully accelerated onboarding by mastering Visual Basic (VB), C#, Windows Forms, and SQL query structures, enabling rapid integration into the core development team.

Application Development & Feature Enhancement:

- Maintained and optimized features for the company's proprietary in-house enterprise application, specializing in implementing core CRUD (Create, Read, Update, Delete) operations.
- Systematically diagnosed, debugged, and resolved software anomalies; developed data preview functionalities to streamline internal data validation processes.
- Refined complex SQL queries to improve database performance, ensuring data accuracy and reducing processing latency.

Development Best Practices & Version Control:

- Adhered strictly to rigorous software engineering workflows, including executing system backups, writing meticulous code documentation/comments, and utilizing Git for

Skills

- C#, Visual Basic (VB), SQL, MATLAB, VHDL.
- Windows Forms, Git, FPGA (DE0) Boards, Microsoft Office (Excel).
- CRUD Operations, Database Optimization, Software Debugging & Troubleshooting, Data Structures &

reliable version control and secure code deployment.

Cross-Functional & Administrative Support:

- *Facilitated smooth departmental operations by assisting team leads and colleagues with technical reporting, Excel data management, and operational coordination.*

Education

2026-07

Bachelor of Science: B.S. in Computer Science And Information Engineering

Yuan Ze University - Taoyuan City, Taiwan

ACADEMIC & PERSONAL PROJECTS

<https://github.com/lyquyen551999>

- **Inventory Management System** | C#, Windows Forms, SQL Server, Azure (*Inventory-Management-WinForms*)
- **Data Structures & Algorithm Implementation** | Computer Science Coursework (*11401_CS203A*)
- C++ Practical Application & Source Code Management (*11402_CI002*)
- **Interactive Music File Manager** | Python, Streamlit (*streamlit-music-files*)
- **Real-time Mental Health & Social Application** | Python, Streamlit, Firebase, NLP (VADER), Matplotlib, Git (*Dormmood*)
- **AI-Powered Image Processing & Emotion Recognition Application** | Python, OpenCV, Streamlit, Deep Learning (ONNX, Caffe) (*image_processing*)
- **Predictive Machine Learning Web Application** | Python, Streamlit, Scikit-Learn (SVM), Pandas, SMTP (*efflux-predictor*)

Algorithms, Version Control.
